ALUNA is a film sequel to the BBC documentary “From the Heart of the World: The Elder Brother's Warning” (1990). The first documentary showed the Kogi, an ancient lost civilization (Elder Brother), who emerge to offer their concern for people of the modern world (Younger Brother). This documentary by director Alan Ereira brings the desperate plea from the Kogi Mamas of the Sierra Nevada of Santa Marta, Colombia, to the rest of humanity. (Length: 90 min)

This movie gives us the privilege to hear the critical message from the Kogi Mamas & from ALUNA, our Great Mother. ALUNA the movie is for people who are concerned about the critical status of the world & want to recover consciousness of the Mother's Ancestral Wisdom, their own spiritual Being & help protect the energetic integrity of nature. ALUNA the Movie will be presented by Regine Veraguas & followed by an intro to the “Holistic Wise Ways”, Original Living Wisdom bestowed to her over the last 10 plus years of apprenticeship in intensive training workshops with her Spiritual Mentor, an ordained Kogi Mama & direct messenger of the Mother.
